Emkom Clay Paint / 126 color tones

Why Clay?

- Clay paint's properties create warm and smooth surfaces and create a distinctive touch.
- Clay is one of the healthiest building materials we know.
- Clay is an ancient building material and therefore well known with all its properties.
- Clay is permeable to vapor, yet it can absorb odor.
- Clay is moisture regulating.
- Clay provides a pleasant room climate, cool in summer and warm in winter.
- Clay is rot and termite proof,
- Clay in a room pleasantly influences skin function and breathing.
- Clay is neutral in odor and absorbs bad odor.
- Our clay paints have a VOC of 0.5%
